**Go Forward**

Disciple making is the process by which a person goes from being spiritually lost (unsaved), to spiritually alive (saved), and then to spiritual maturity (a disciple maker). There are many elements in this process that we see in God's Word: God's preparation of the heart, an obedient messenger who goes and proclaims the good news about Jesus Christ, a person places their faith in Jesus Christ, spiritual fruit/growth in the new believer, mature believers coming alongside new believers to mentor/disciple them toward maturity and equip them to become a person who makes disciples. Since *every* believer should be engaged in this process, here are some questions to consider: Where are you in this process? In what ways are you involved? Where would you like to be involved? What equipping do you need? How can FBC be more effective in the discipleship process for you and others? There is so much work to be done and we all have so far to go, but there is *nothing* more important and satisfying than fulfilling our duty to make disciples.
